

Egyptian Day-of-the-Week Fortune

Shuffle the deck (after first removing the Tens and the Jokers), then draw one card, face-down, from the deck, which corresponds numerically with the day you were born. Thus, if you were born on a Sunday, you'll take the top card as your fortune. If you were born on a Monday, you'll take the second card down as your fortune.

Born on a Tuesday, you'll take the third card down, and so on. For purposes of this fortune, *Low Cards* are considered to be Aces, Twos, Threes, Fours, Fives and Sixes. *High Cards* are considered to be Sevens, Eights, Nines, Jacks, Queens and Kings. Go to the day of the week you were born in the list below, in order to read your life-fortune from either the high or low option.

Euphonia's Corollary: In order to know your fortune for this year or next, shuffle again, choose a card, then to the day of the week on which your *last* or *next* birthday fell, or will fall, in order to read your fortune for either this year or next. Depending on the card you draw, either the High or Low forecast is your fortune.

Sunday:

Low: A relative will make mischief.

High: A joyful message from afar.

Monday:

Low: A gift of money or an increase in income.

High: Gossip spread about you by a false friend.

Tuesday:

Low: You will cross water before long.

High: Difficulties removed by a new home.

Wednesday:

Low: A good business offer comes your way unexpectedly.

High: An unexpected visit from an old friend.

Thursday:

Low: A disappointment ~ which proves to be a blessing in disguise.

High: You will experience a change of surroundings shortly.

Friday:

Low: A promotion will come your way.

High: An unlooked-for, unexpected holiday or vacation proves to be very enjoyable.

Saturday:

Low: You will find something lost long ago.

High: You'll have a great time socially, and go on a short journey.
