

Fadic Years

As Calculated by the Recurrent Formula

Fadic years are years in a person's life when something important, crucial or fated happens in that person's life. These can be seen as turning points in the life of the subject. To determine what these 'fated' years are, follow the step-by-step instructions below:

<p>Name: _____</p> <p>Year of Birth: _____</p> <p>Add up digits in the year of birth as a line problem, & reduce to its compound number:</p> $\begin{array}{r} + \quad + \quad + \quad = \quad _____ \end{array}$ <p>Add the year of birth + the compound number:</p> $\begin{array}{r} + \\ _____ \end{array}$ <p>The result above is the first fadic year of life. Add up the digits in the first fadic year and reduce to a single digit or master number, in order to learn the essential nature of the likely crucial change which will happen this year:</p> $\begin{array}{r} + \quad + \quad + \quad = \quad _____ = \quad _____ \end{array}$ <p>Subject's Age This Year: _____</p> <p>Nature of the Year:</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>Result:</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p>	<p>To find the second fadic year of the person's life, add up the first fadic year & the compound number derived from the birth year:</p> $\begin{array}{r} + \\ _____ \end{array}$ <p>The result above is the second fadic year of life. Add up the digits in the second fadic year, then reduce to a single digit or master number, in order to learn the essential nature of the likely crucial change which will happen this year:</p> $\begin{array}{r} + \quad + \quad + \quad = \quad _____ = \quad _____ \end{array}$ <p>Subject's Age This Year: _____</p> <p>Nature of the Year:</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>Result:</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p>

Fadic Years

Recurrent Formula, continued

To find the third fadic year of life, add up the second fadic year of life and the compound number derived from the birth year:

+

The result above is the third fadic year of life. Add up the digits in this third fadic year, then reduce to a single digit or master number in order to learn the essential nature of the crucial change in this year:

+ + + = _____ = _____

Subject's Age This Year: _____

Nature of the Year:

Result:

To find the fourth fadic year of life, add up the third fadic year and the compound number derived from the birth year:

+

The result above is the fourth fadic year of life. Add up the digits in this fourth fadic year, then reduce to a single digit or master number in order to learn the essential nature of the crucial change in this year:

+ + + = _____ = _____

Subject's Age This Year: _____

Nature of the Year:

Result:

Fadic Years

Recurrent Formula, continued

To find the fifth fadic year of life, add up the fourth fadic year and the compound number derived from the birth year:

+

The result above is the fifth fadic year. Add up the digits of this year, then reduce to a single digit or master number, in order to learn the essential nature of the crucial change in this year:

+ + + = _____ = _____

Subject's Age This Year: _____

Nature of the Year:

Result:

To find the sixth fadic year of life, add up the fifth fadic year and the compound number derived from the birth year:

+

The result above is the sixth fadic year. Add up the digits of this year, then reduce to a single digit or master number, in order to learn the essential nature of the crucial change in this year:

+ + + = _____ = _____

Subject's Age This Year: _____

Nature of the Year:

Result:

Fadic Years

Recurrent Formula, continued

To find the seventh fadic year of life, add up the sixth fadic year and the compound number derived from the birth year:

+

This is the seventh fadic year of life. Add up the digits in this year, then reduce to a single digit or master number, in order to learn the essential nature of the change in this crucial year:

+ + + = _____ = _____

Subject's Age This Year: _____

Nature of the Year:

Result:

To find the eighth fadic year of life, add up the seventh fadic year and the compound number derived from the birth year:

+

This is the eighth fadic year of life. Add up the digits in this year, then reduce to a single digit or master number, in order to learn the essential nature of the change in this crucial year:

+ + + = _____ = _____

Subject's Age This Year: _____

Nature of the Year:

Result:
