

# THE TABLETS OF THOTH

*For questions concerning sage advice particularly-applicable to  
the inquirer's near-future.*

*To be consulted no more than once every 25 days.*

## **RULES:**

The inquirer, with their eyes closed, should hold their pointer, tip-down, over the tablet while another person turns the chart around four times. With eyes still closed, the inquirer then points to whatever part of the diagram they feel drawn-to.

If they miss, the inquirer is permitted two more tries. If, in three attempts, the inquirer fails to select an answer, then they must wait an additional 24 hours before attempting to consult the Tablets of Thoth. If, in 24 hours they still fail to select an answer, then they must wait twenty-five days before attempting to consult this tablet again.
