

FINDING MONEY OMENS

Some General Rules of Thumb Regarding Found Money:

- ◆ It's a communication from the Spirits, possibly from a deceased loved one.
- ◆ Finding a coin face-side-up is a positive sign.
- ◆ Finding a coin tails-side-up is considered a negative sign. It typically signifies the reverse of whatever the heads-side-up means. In those cases, you're supposed to take the relevant message from it, turn the coin over and leave it there face-up for the next person to find. Taking a coin which has been lying there face-down is considered unlucky, and it's believed you'll take the ill-luck with you.
- ◆ The higher the value of the coin, the more it is a sign of coming prosperity, and/or good luck.
- ◆ Finding a coin is a sign of a new start in life coming. One source states that coins convey a message of long life, a great destiny, and a new start in life coming, but no other source I've found confirms that assertion, only the new start in life bit.
- ◆ Finding a currency note means your spirit guides are cheering you on. Let go of your fears, trust your instincts, and stay on the path you are on, for it is the correct one for you now, and it is the path which they led you onto. You are well-positioned for a positive change in life, one filled with positivity and happiness.
- ◆ Finding an old currency note is considered a negative sign, because its used-up condition is believed to be an admonishment from the Spirits that you had prior opportunities you either didn't notice, or noticed but failed to take advantage of.
- ◆ Finding money on the left side of the street or on the left side of your path is a sign of caution. You may need to reconsider a decision you've made. Or, you might've missed an important detail which may be about to culminate in a large mistake.
- ◆ Finding money on the right side of the street or on the right side of your path can be taken as a confirmation. You are taking the right step, and may proceed confidently with your proposed action without any fear of failure.
- ◆ Deriving numerological significance from found-money is valid, especially if the found money is an odd-lot group of coins in varying levels of value. For example if you found a dime, two nickels and three cents, that adds up to 23, the number of transformation, which suggests you're coming up to a transformative period in your life.

FINDING MONEY OMENS, con't.

General, Universal Messages You May Take From Finding Money:

- ◆ A deceased loved one, spirit guide or angel is trying to communicate with you.
- ◆ You are valued, appreciated and deserving. Your life is full of goodness and you have a lot to offer the people around you.
- ◆ Good luck is coming to you.
- ◆ Opportunity is coming for you.
- ◆ Prepare for a new season in your life; something may be about to begin.
- ◆ You are in alignment with your destiny and are on the right path-stay the course.
- ◆ Stay aware, pay attention, & don't be careless. Remember to save for a rainy day.
- ◆ Keep up the good work. Be consistent and do your best, and the rewards will come.
- ◆ Just as you receive, remember to give as well.

FINDING COINS IN GENERAL:

Finding any denomination of coin is a message about receiving the opportunity for a new start in life. One source states it also conveys a message of longevity, and that you are destined for great things in life.

PAPER CURRENCY

Finding paper currency of any denomination is a sign your spirit guides are cheering you on and telling you to keep going, for it was they who led you onto this path and they will not be leading you astray. All you have to do is let go of fear and trust your instincts, for your instincts are nudged by them, getting you to go in the right direction. There is no particular significance to face-side-up or tails-side-up with paper currency like there is for coinage.

FINDING MONEY OMENS, con't.

FINDING COINS:

FINDING A ONE-CENT COIN:

- ◆ An unexpected windfall or bit of good fortune.
- ◆ A gesture of comfort from the deceased; you are not alone. You are loved and valued.
- ◆ You are on the right track
- ◆ A fresh start is all you need.
- ◆ You will receive the support you need.
- ◆ Your heart's desire will be granted
- ◆ Your uniqueness is your advantage; stop trying to be like everyone else.
- ◆ Your independence and self-sufficiency are good traits to have.
- ◆ Pick yourself up and try again. Yes you suffered a setback, but it's time to try again.
- ◆ Trust yourself more; you are more capable than you think. It's time you realize this
- ◆ Someone will need your help soon, and you must render them that help.

To find more than one penny indicates your luck and fortune are going to change for the positive very soon. The greater the frequency with which you find a penny, the closer you are to a season of fruitfulness and abundance. Finding a penny or one-cent piece face-down is less lucky, as it suggests being on the wrong track, being too out-of-step, or making a wrong start at something. When you find it, derive the message, then turn the coin face-side-up for the next person to find.

FINDING A FIVE-CENT COIN:

- ◆ You are not alone in the world. You are greatly-valued by loved ones.
- ◆ You have a great support system, so take a risk or two; it could pay off.
- ◆ A sign of imminent good fortune. You will soon receive good luck in key parts of your life.
- ◆ Be adventurous. Take more risks. Life is change; embrace it. If you always do what you have always done, you will always get what you always got.
- ◆ You may be at the start of a new chapter in life.

- ◆ Cherish and nurture your sense of curiosity.
- ◆ Things are looking up for you. You're heading in the right direction in life, so keep going.
- ◆ Whatever new event you're experiencing in life is going to be worth the risk.
- ◆ Good fortune could take the form of discovering a new source of income, so remain open to all possible sources of financial gain.

Finding a nickel face-down is a bad omen. It indicates now is not a good time to take risks, try something new, be adventurous, or take a gamble. When you come across a nickel with the tails-side-up, you're supposed to bend down, turn it face-side-up, then leave it for the next person to find.

FINDING A TEN-CENT COIN:

- ◆ New opportunities are coming.
- ◆ Believe in yourself.
- ◆ Be hopeful, and take heart; good things are coming your way. The number ten represents the end of a cycle, and 10 is the number of God's blessing on new beginnings.
- ◆ It is time for the next chapter in your life. It is time to let go of things which have run their course.
- ◆ Financial prosperity is coming, possibly as the result of your own efforts at some new endeavor.
- ◆ This coin is a visit from a deceased loved one. If you were thinking of someone specific before finding it, then it could be a sign coming directly from that person.
- ◆ You are spiritually in-tune with the universe. Stay positive and keep your faith strong, no matter what challenges you're facing in life.
- ◆ The spirits are in your favor and things will turn out the way you want. They will help you in whatever you do, and you need not fear.
- ◆ You need to pay attention to something. Trust your instincts and proceed with your decision.
- ◆ Work on a certain project independently, before you consult with or show it to anyone else. If you show them an incomplete draft, they simply may not fully understand your vision. They need the full picture.

Curiously, finding a dime face-side-down, tails-side-up is considered no less lucky than finding it heads-side-up, which makes it unusual for a coin.

FINDING MONEY OMENS, con't.

FINDING COINS:

FINDING A TWENTY-FIVE CENT COIN:

- ◆ Good luck is coming; there could be an important or crucial breakthrough soon.
- ◆ Expect good things to happen in your life.
- ◆ A major promotion may be coming.
- ◆ Prepare for a major opportunity
- ◆ This would be a lucky time to play the lottery or gamble.
- ◆ Prosperity is coming, and your money worries will go away. A change in financial status.
- ◆ A deceased loved one is looking out for you.
- ◆ Your Guardian Angel is protecting you
- ◆ There is healing coming to you; or a source of healing may be available to you right now.
- ◆ Emotional stability; if you don't have it now, it's coming.
- ◆ Answered prayers; if you recently made a wish or prayed for something, this is confirmation.
- ◆ It's time to start a new chapter in your life.
- ◆ You're in harmony with and supported by Universe.
- ◆ A possible confirmation of your thoughts at the time you found it.
- ◆ Twenty-five is the number of gain-through-strife. There may be a battle ahead, or a series of smaller skirmishes, but you'll eventually win. Universe will make you work for that win, however.

There is also a whole set of lore regarding where you found the quarter:

- ◆ **In your purse, pocket or wallet**-you're still in control of your finances and have the ability to manifest abundance.
- ◆ **On the ground**-you will soon receive some unexpected money-either found, bestowed or lottery win.
- ◆ **In between the couch or sofa cushions**-a reminder to stay positive and hopeful, as good fortune is on its way.
- ◆ **Frequently found around the house**-a wealth attractor and a sign of positive energy.

- ◆ **Random places around the house**-could indicate the presence of ghosts who are looking out for you.
- ◆ **In a dream**-good luck and fortune; you are about to come into some money or have a stroke of luck.
- ◆ **On the floor of your bedroom**-you might be about to experience a breakthrough in life; things are about to get a whole lot better for you
- ◆ **In a vending machine**-don't be careless; another's loss may be your gain.
- ◆ **In a graveyard**-you will soon receive a warning about a future event.

One superstition I've found in connection with the finding of a quarter states that the amount of money you'll receive is dictated by the mint year on the coin. For example, a mint year of 1981 means you'll receive \$81 in the near-future. As always, if you find the quarter tails-side-up, face-side-down, it isn't as positive as it is finding it face-up, and you're encouraged to turn it face-side-up for the next person.

FINDING A FIFTY-CENT COIN:

- ◆ Step outside your comfort zone.
- ◆ You either are, or soon will be presented with the opportunity to take a significant risk, accept a dare, go on an adventure, or make a big change in your life.
- ◆ Know the divine support you in this, however scary or risky it looks.
- ◆ You will not fail, fall, die, or get lost, for the Spirits are there supporting you every step of the way.
- ◆ The bigger the risk, the bigger the reward.

A half-dollar coin is the rarest coin to find, even rarer than finding a dollar coin. There is no specific lore I have found on what it means to find a half-dollar coin, so I have based my surmises above purely on the numerology, five is the number of change, adventure, freedom, excitement, liberation, travel, and technology. Zero is the God number.

ONE FINAL NOTE ON THE MEANING OF COINS:

In considering the message behind the finding of a particular coin, the biography of the person whose head or face appears on the coin is a valid piece of information to take into account.

FINDING MONEY OMENS, con't.

FINDING CURRENCY NOTES:

FINDING A ONE-DOLLAR BILL:

- ◆ An omen of coming good luck.
- ◆ A reminder to be grateful for what you have.
- ◆ An omen of future financial growth.
- ◆ An omen of future wealth and abundance.

FINDING A TWO-DOLLAR BILL:

These are considerably rarer to come across. For a currency note which is seldom seen in active circulation, there is much lore and associated with the finding or receiving of one:

- ◆ If you have been desiring to find a soulmate, this is a sign universe is helping you.
- ◆ A reminder to be grateful and appreciative for what you have.
- ◆ A warning of coming scarcity.
- ◆ A caution against overspending; you may be spending too much on things you don't need.
- ◆ Be aware of missed opportunities; many opportunities are masked as problems-or work.
- ◆ You may have already missed opportunities, including a rare one or two, or are missing them now. You may be stopping your mind from seeing opportunities around you.
- ◆ A caution that you may have a limited mindset. You may be failing to see the big picture and acting impulsively, rather than logically.
- ◆ This may be a wake-up call to break out of a rut.
- ◆ Can be a message that something in your possession or life is deteriorating in value.
- ◆ A possible harbinger of a coming period of peace and harmony.
- ◆ There may be a gifted mediator coming who could bring peace to a contentious situation in your life.
- ◆ You may be about to embark on a journey of self-discovery.
- ◆ An encouragement to help the less fortunate.

On the whole, finding or receiving a two-dollar bill is considered a negative sign. Finding or receiving more than one two-dollar bill is considered a sign of coming bad luck. And if you find or receive more than three two-dollar bills, that is taken as a very-unwelcome sign your financial situation is about to take a big hit. Giving away a two-dollar bill is taken as an encouraging sign you have decided to let go of what is holding you back. If the two-dollar bill which comes into your possession is rather old and worn, it's saying there are already opportunities you've let pass you by.

One would think the rarity of coming into possession of a two-dollar bill could be taken as the encouraging message, 'you're a unique person; we like that about you!' or 'you're about to experience a very unique and possibly life-changing event.' Unfortunately, I have found no omen-lore about the two-dollar bill which mentions these possibilities. Consult your intuition, your own inner-knowing, if you suspect this is the case with the message you're meant to get.

FINDING A FIVE-DOLLAR BILL:

- ◆ An omen of good luck.
- ◆ An omen of coming wealth and abundance.
- ◆ A reminder to be grateful.
- ◆ A reminder about humility and charity.
- ◆ An encouragement to be strong and have courage.
- ◆ An encouragement to have faith and to trust.
- ◆ An encouragement of personal freedom.
- ◆ Find your voice and use it confidently for the greater good.
- ◆ You are valued and wanted, so show confidence in yourself and develop a healthy self-esteem.

FINDING A TEN-DOLLAR BILL:

- ◆ An omen of coming happiness and joyousness.
- ◆ An assurance that whatever difficulty you are currently enduring will come to an end soon.
- ◆ An encouragement to stay happy and positive at all times

FINDING MONEY OMENS, con't.

FINDING CURRENCY NOTES:

FINDING A TWENTY-DOLLAR BILL:

- ◆ An omen of coming good luck and fortune.
- ◆ An omen of coming prosperity and abundance.
- ◆ Trust your intuition and follow your heart.
- ◆ A new opportunity is coming your way.
- ◆ Stay open to all the possibilities out there.
- ◆ Have faith and hope for the future.
- ◆ Stay positive and be grateful for what you have.
- ◆ A fortune and beneficial partnership could be coming your way.
- ◆ A divine judgement in your favor.

FINDING A FIFTY-DOLLAR BILL:

To come into possession of a fifty-dollar note unexpectedly is exceedingly rare, but if you ever do have the good fortune to find one in an accidental, random manner, its message is quite clear:

- ◆ This is the fifty-cent omen on steroids.
- ◆ Step outside your comfort zone. Do something different, and maybe a little bit scary.
- ◆ You either are, or soon will be presented with the opportunity to take a significant risk, accept a dare, go on an adventure, or make a big change in your life.
- ◆ Know the divine support you in this, however scary or risky it looks.
- ◆ You will not fail, fall, die, or get lost, for your spirit guide are aiding you every step of the way.
- ◆ The bigger the risk, the bigger the reward.
- ◆ You're being given a major shove in the back here to get in the game.

FINDING A ONE-HUNDRED DOLLAR BILL:

To find a one-hundred dollar note is even rarer than finding a fifty-dollar note, but if you ever do have the good fortune to find one in an accidental, random manner, it is an admonishment with one overriding message:

- ◆ This is a **strong** message from God/Universe/Spirit about consistency and follow-through.
- ◆ Complete the project you now have on-hand.
- ◆ Do everything in your power to complete every incomplete project you have started.
- ◆ You have one or more irons in the fire which are done, and they need to be withdrawn.

FINDING MONEY OMENS, EURO EDITION

COINS

One-Cent Euro Coin: See page 3

Five-Cent Euro Coin: See page 3

Ten-Cent Euro Coin: See page 3

Twenty-Cent Euro Coin-See 'twenty-five cent coin' on page 4 for most of it, with the following numerological substitution & additional meanings:

- Twenty is the number of austerity & sadness in Gematria, There may be delays or hindrances to your plans. Progress is not likely now. Found tails-side-up, the period of austerity, sadness & delays is coming to an end, so be patient. To find a tails-side-up 20-cent coin with three 1-cent coins is even more positive, as it hints at a positive transformation in your life.
- Twenty is the number of awakening or judgement to the Chaldeans, so the spirits may have arrived at an important judgement regarding you. Soon, you will know what that judgement is.

Fifty-cent Euro Coin: See page 4

One-Euro Coin: See 'one-dollar bill' on page 5

Two-Euro Coin: See 'two-dollar bill' on page 5. This is more-fortunate to find tails-side-up, as it means the ill-fortune is leaving.

Five-Euro Note: See 'five-dollar bill' on page 5.

Ten-Euro Note: See 'ten-dollar bill' on page 5.

Twenty-Euro Note: See 'twenty-dollar bill on page 5

Fifty-Euro Note: See 'fifty-dollar bill on page 6

One-Hundred Euro Note: See 'one hundred dollar bill on page 6

TWO-HUNDRED EURO NOTE:

Extremely unlikely to find, but if you do come into possession of one unexpectedly then, just as finding a 100-Note is a clear sign from God/ Universe/Spirit that you need to complete something, here They are strongly telling you that you are dithering, being irresolute about something important, and that you need to finally make up your mind and come to a decision! No more dawdling!

FIVE-HUNDRED EURO NOTE:

The most-unlikely of all popularly-circulated currency to find in a random fashion, such as on the street, finding a 500-Euro Note means you can pin a halo on you *anywhere, just anywhere*, since in Gematria 500 is the number of holiness. You are a good person and the Spirits are rewarding you for it. Or, given the presence of the '5' here, you may have really stuck your neck out in some way, taken a significant risk, and you're being rewarded for it.

FINAL REMINDER:

All the omen indicators in this guide are single-use indicators for the specific coin or currency note under which they are listed, and for all currency comparable to that particular coin or note. A combination of coins, or coins and notes, needs a more careful interpretation, because the Spirits are sending you a more complicated message.
